CS 446/546 – Networks in Computational Biology

MW 16:00–17:20   Winter 2023   Stephen Ramsey   lab.saramsey.org

- do a research project related to analyzing a large network

- learn about tools for analyzing and modeling networks

- use Python and R packages for data & network analysis

- pandas, numpy, scipy, igraph, jupyter, …

- improve your skills in data science

- no biology background required

Non-CS students who are proficient in programming are welcome

Oregon State University
